REPORT OF THE AUDITORS

The Lieutenant-Governor in Council, Province of British Columbia:

We have examined the balance-sheet of British Columbia Hydro and Power Authority as at March 31, 1970, and the statements of income and source and application of funds for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of British Columbia Hydro and Power Authority as at March 31, 1970, and the results of its operations and the source and application of its funds for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA HYDRO AND POWER AUTHORITY—*Continued*

NOTES TO FINANCIAL STATEMENTS AS AT MARCH 31, 1970

NOTE 1—PEACE RIVER PROJECT.—Economic considerations have dictated construction of a dam, powerhouse, and other common property for the Peace River project to provide capacity for up to 10 generating units. The dam and powerhouse have been completed, but the generating units are being installed over a period of several years to keep pace with the increase in demand for power.

Accordingly, British Columbia Hydro has adopted an accounting practice of transferring the construction costs of the dam, powerhouse, and other common property to plant in service by instalments proportionate to the number of completed and operational generating units in relation to the 10 units presently contemplated. The transfers are to be completed not later than March 31, 1976. By March 31, 1970, five generating units were in service, and consequently 50 per cent of the costs of the dam, powerhouse, and other common property had been transferred to plant in service.

The costs of the dam, powerhouse, and other common property not yet transferred to plant in service are shown separately as deferred costs under property account. These costs will continue to attract interest charged to construction.

NOTE 5—EARNINGS EMPLOYED IN THE BUSINESS.—The stabilization of rates and contingency reserve has been reclassified under this heading to recognize that the accumulated earnings have been invested in the business over the years:—

AUDITOR'S REPORT

(Report by Buttar & Chiene, Chartered Accountants, Vancouver, British Columbia, upon the Accounts of the Pacific Great Eastern Railway Company, as at December 31, 1969.)

We have examined the balance-sheet of the Pacific Great Eastern Railway Company as at December 31, 1969, and the statement of consolidated income for the year ended on that date, and have received all the information and explanations required by us.

The statements are prepared in conformity with the Uniform Classification of Accounts prescribed by the Board of Transport Commissioners for Canada.

Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, and according to the best of our information, the explanations given to us and as shown by the books of the Company, the accompanying balance-sheet and statement of consolidated income present fairly the financial position of the Company as at December 31, 1969, and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the previous year.

Reported by,

BUTTAR & CHIENE, *Chartered Accountants.*
